Asociación Divina Misericordia

Comunidad. Hijas de Nuestra Señora de los
Desamparados

"whatever you did for one of the least of these brothers of mine. You did for me"

Matthew 40-45

Who We Are?

La Asociación Divina Misericordia is a nonprofit institution. The sisters and their family resource caregivers are responsible for ensuring that children with disabilities (cerebral palsy etc...) are taken care of and ensured a good quality of life.

Economic resources are limited and only with the help of good hearts can we go forward.

Mission

We are a national association with a strong work ethic based on love and service to others. With transparency and integrity our highly technical and specialized staff care for and oversee the rehabilitation of people with diminished capacity.

Vision

To serve our brethren with the support of volunteers, private businesses and professionals, while respecting their rights as

children and as individuals.

Ensuring they receive sufficient support to provide better quality of life.

Projects

We have some projects that due to lack of resources have not been completed. One is to build a wall around the home to increase the security of the facility.

With the help of private enterprise we have built a therapeutic pool. However, we still need a roof and solar heating to complete the project.

EXISTEN TRES COSAS
LA FE, LA ESPERANZA Y EL AMOR
PERO LA MAS IMPORTANTE DE
TODAS ES EL **AMOR**

Building a new section for our clients who are now over 18 but continue to need our services in the only home they have ever known.
